## **WORLD HEALTH SUMMIT 2022 – TOGETHER WITH THE WORLD HEALTH ORGANIZATION (WHO)**

The World Health Summit and the World Health Organization join forces to organize the world's leading international, inclusive and inter-sectoral global health conference that will set the agenda for a healthier future.

The [World Health Summit 2022](#) from October 16-18 is the first World Health Summit together with WHO and a kick-off: a joint summit will be taking place every three years from now on.

WHS 2022 is part of a long-term close collaboration, as WHO has been a strong strategic partner of the World Health Summit since its very beginnings.

### **Finding Solutions for Global Health**

The aim of the joint World Health Summit is to create synergies and combine forces for global health development by engaging all relevant global health leaders and stakeholders from all sectors in all regions of the world.

WHS 2022 strengthens exchange, stimulates innovative solutions to health challenges, fosters global health as a key political issue and promotes the global health debate in the spirit of the UN Sustainable Development Goals: SDG 17 “Partnership for the Goals”

### **Making the Choice for Health**

This year’s World Health Summit will focus on “Making the Choice for Health” by reflecting on the most pressing topics, including:

- Investment for Health and Well-Being
- Climate Change and Planetary Health
- Architecture for Pandemic Preparedness
- Digital Transformation for Health
- Food Systems and Health
- Health Systems Resilience and Equity
- Global Health for Peace

WHS and WHO are both dedicated to the well-being of all people. To give everyone everywhere the chance to live a healthy life is a global effort, and the key to achieve better health for all lies in collaboration and open dialogue, guided by science. This is what WHS 2022 stands for.

### **Short Cut WHS 2022**
